COVID-19 Health and Safety Protocols

Effective June 1, 2020

Nothing is more important to us than the health and safety of our children, families, and faculty. We have worked hard to implement additional policies and procedures to help keep Kiddie Junction as clean and germ-free as possible.

Drop off and pick up procedures

When children arrive in the morning, their temperatures are taken. The mask that they are wearing from home is switched with a clean, school-issued mask. Their shoes are changed into shoes that are only worn inside. Children immediately wash their hands upon arrival and our teachers insure proper handwashing procedures are followed. A designated teacher walks children to their classroom. At pick up time, the morning procedures are then reversed- hands are washed again, school masks are put away and home masks are put back on, and indoor shoes are changed with home shoes.

Cleaning and Disinfecting

Our staff has implemented an even more rigorous cleaning and sanitizing routine that is completed regularly throughout the day. These include, but are not limited to, all learning materials, books, toys, shared surfaces, and outdoor play equipment. After a child uses an item, they take it to the classroom washing station and help wash the item they used. Their teacher then uses a sanitizing solution to further disinfect the item and allows it to completely air dry before another child uses it. We also utilize dividers when children are at tables so that we are able to maintain social distancing. Hepa Air purifiers are used in all classrooms which are certified to protect against COVID-19.

Face Coverings

All children over the age of 2 years old and all staff members are required to wear protective face coverings. We have provided face coverings to all of our children over age 2 and to our staff. Children received their own character face masks with the choice of princess or Paw Patrol. Upon arrival at Kiddie Junction, children's home masks are switched with their school mask. School masks are cleaned nightly and as needed.
